

# Health insurance just got smarter

No more networks, no more  
surprise bills, no more games.

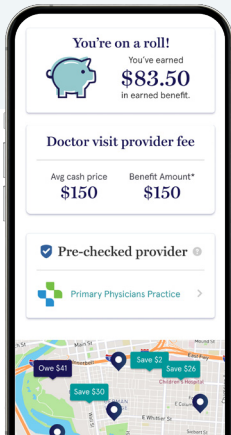

## Finally,

- Insurance that's empowering because you can know in advance what services cost. Goodbye surprise bills.
- You can always choose your own doctor. No networks, so there's no question whether your favorite doctors are covered.
- Affordable monthly premiums. We cut out the red tape between you and your doctor—and pass those savings on to you.

**Sidecar Health is changing health insurance with a modern, common sense approach that empowers you to choose your doctors and know your costs.**

# How it works

## STEP 1

### Know your benefits

Access and bookmark the Sidecar Health member portal at [member.sidecarhealth.com](http://member.sidecarhealth.com) to find the Benefit Amount your plan pays for the care you need.\*

## STEP 2

### Choose your provider

Compare provider prices to your Benefit Amount to see your cost or savings. ✓ See a **pre-checked provider** and pay \$0, post-deductible.

## STEP 3

### Pay for your care

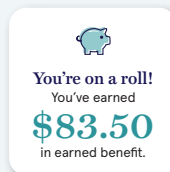

Use the Sidecar Health VISA benefit card to pay and ask for an invoice to upload to the member portal.

## STEP 4

### Earn cash back+

When you find care for less than the Benefit Amount, you share in the savings.
